**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

## **DETAILED ACTION**

### ***Specification***

1. The disclosure is objected to because of the following informalities: On page 1 the unexplained abbreviation PMMA is present three times. There cannot be any unexplained abbreviations in the specification. Polymethyl methacrylate (PMMA) is acceptable.

Appropriate correction is required.

### ***Claim Objections***

2. Applicant is advised that should claim 1 be found allowable, claim 26 will be objected to under 37 CFR 1.75 as being a substantial duplicate thereof. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 19 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 1714

5. Claim 19 contains an unexplained abbreviation, i.e. PAMA. There cannot be any unexplained abbreviations in the claims.

***Claim Rejections - 35 USC § 102***

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 16, 18, 20 and 22 are rejected under 35 U.S.C. 102(b) as being anticipated by Podszun et al. 4,389,507.
8. Podszun et al. disclose polymer beads having an average diameter of 5-500 microns and a filler in claim 8, mixture in claim 1, aluminum hydroxide in column 1, line 27, dental composition in column 2, line 27 and molding compound in claim 8. A product-by-process claim must patentably distinguish as a product over a similar article or compound manufactured by the cited reference in order to be patentable. See, in re Thorpe 227 USPQ 964 (Fed. Cir. 1985) and in re Marosi 218 USPQ 289 (Fed. Cir. 1983). Applicants' claims are not novel.

***Claim Rejections - 35 USC § 103***

9. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 1714

10. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

11. Claims 16, 18-20, 22 and 23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Podszun et al. 4,289,507, in view of Denkinger et al. 5,744,565.

12. Podszun et al. has been discussed already. Denkinger et al. teach PAMA plastisol made out of acrylic bead polymers having a particle size of 10=30 microns (column 3, lines 35-47) and dashboard facings, which are matt, made out of it (column 7, line 17). It would have been obvious to one having ordinary skill in the art, at the time the invention was made, to use the bead polymer of Podszun, for the plastisol of Denkinger et al., since the particle sizes overlap

***Allowable Subject Matter***

13. Claims 1-15, 17, 21, 24 and 25 are allowed.

14. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter Szekely whose telephone number is (703) 308-2460. The examiner can normally be reached on 7:00 a.m.-5:30 p.m. Tuesday-Friday.
